(a) Log-Log plot of Pressure Convergence rate

(b) Log-Log plot of $\nabla \cdot \boldsymbol{u}^*$ convergence rate

Figure 6. 11: Log-Log plots of error convergence for *Pm 1 (b)* on domain: $\left[-\frac{1}{2}, \frac{1}{2}\right]^2$ at time 1 with *CFL = 0.1*. There are 3 outliers in the pressure plot which corresponds to grid size of 120
